

As an individual who commuted daily from Trumbull to Greenwich on I95 and the Merritt Pkwy for 35 years, I cannot believe the re-institution of tolls is being proposed.

The time of my commute increased steadily each year without tolls and definitely hastened my retirement in 2012. All tolls will accomplish is discouraging corporations and families from moving here, waste lots of gas, make folks a lot poorer and increase pollution making our state less healthy.

PLEASE use some common sense!

Sincerely,  
Frank Piraneo
