

NO border tolls!

They would discriminate against Connecticut residents who live near a state line, including thousands of Greater Danbury residents.

When I can actually afford to buy gas in order to visit my son & his family in northern VT, I don't need the additional fees this bill would incur. For driving in my own state!!

It's bad enough w/the tolls in NY State PLUS the Newburgh Beacon Bridge. Last Thanksgiving I had to find an open convenience store w/ATM just

so I could cross the bridge and get home. That made the total cost \$14.00 just for the bridge!

After 7 hours on the road that really was the limit.

If you legislators really represent us, cut all the frivolous spending, don't automatically cut aid money (that's where you go first each time), and YOU live on a budget like the rest of us.

Thank you for your consideration in this matter.
