

Placing toll booths in Ct. should get a big NO vote. We already have traffic jams throughout Ct. in the morning and early evening hours, and toll stops will make it worse. Some us still remember the horrible accident that helped close down the toll booths years ago. We already have high taxes on gas consumption, and on just about every we buy and services we need. Our governing body should be budgeting our finances wisely just as all the taxpayers have to do. Taxing in this state is getting out of hand. Please vote no to tolls.
