

Dear Transportation Committee,

We do not want tolls in this state. Traffic is already congested - this will make life even more complicated and travel will be more time consuming. It will add to the cost of goods purchased and really constitutes another tax.

Why should Connecticut bring interstate traffic to a halt? Just to collect more taxes? We should be helping business, not hurting it.

Balance the budget - cut spending. Do not add to the tax burden here - it is already too high.

Sincerely,

Jim and Fran Morlino
