

What are you thinking? No border tolls. Traffic is a huge issue now and will become untenable with the imposition of border tolls. The economic impact can't be understated either. For those thousands who commute into NY, for the shoppers who flock to Danbury, for the residents of western ct., border tolls will only add to the cost burden of CT citizens but they will depress our economy further. Transportation needs to be improved in CT to ensure our economic growth. But not by border tolls!

Joan Stapleton
