

To: CT Transportation Committee

As a lifelong resident and taxpayer of Connecticut I urge you to **say "NO" to Border Tolls.**

Especially a border toll on I-84 in Danbury is a very bad idea. The Danbury Fair Mall receives a large portion of it's customers from New York State and Connecticut receives a large amount of Sales Tax revenue as a result. This would disappear if a Border Toll was imposed. Also, a large number of Connecticut residents commute to New York for work. A Border Toll would cause an influx of traffic onto local roads and create a traffic nightmare on already congested local roads.

While I understand that you would like out of state residents to contribute to the upkeep of Connecticut roads, Border Tolls in the Danbury area are not the answer.

Thank you,
