

My name is Karen Lanigan and I live in Danbury, CT.

Since I could not leave my job today to attend the public hearing on House Bill 6818 - re-instating tolls on Ct borders, I am instead sending this email to clearly display my strong opposition.

I am totally against re-instating any kinds of tolls on CT highways! CT's traffic flow on all our highways is so horrendous now, we do not need toll plazas creating more backups and, even worse, dangerous situations!

If additional money needs to be raised for transportation improvements, it should be raised in other ways.....which would NOT make our roads even more dangerous than they currently are!
