

As a long time resident of the Danbury Area, I strongly oppose tolls on 84. It will encourage motorists onto our side roads, slowing local traffic including school buses and emergency responders. It will make our daily lives in this area way more congested and hamper the growth of the economy the Danbury area especially the mall. Why will NY residents choose to come to CT when the tolls will add to their costs? They have choices to shop/work in NY instead.

Surely there has to be a better way to improve the commuter traffic problem without adding to the problems and costs of the local residents. Sincerely, Katherine Gissoni, 14 Canterbury Ct. Brookfield CT 06804
