

Please know that we stand in opposition to Creating Border Tolls in CT. I live in Suffield CT, my work takes me across the State Line into Mass and RI on a regular basis. This additional cost would burden both my work and private travel. In addition, I have many out of state customers who travel into my CT Location to conduct business. This additional cost to my customers would limit their willingness to travel to continue our business relationship. In the end this hurts our CT businesses.

I am also concerned that to avoid the tolls on Route 91 at the State Line, travelers would naturally take alternate routes Through Enfield and Suffield creating additional traffic hazards on Routes 5, 159 and 75, increasing delays and accidents. We see this phenomenon once each year during the BigE when many travelers avoid the traffic on Route 91 into Springfield.

Thank You for your consideration of this important taxing issue.
