

We are strongly opposed to tolls on CT Highways at our state borders or anywhere in CT. It is an additional tax. We are in a state that aggressively overtaxes its citizens. As taxpayers, we see our hard-earned tax dollars wasted by our governor and CT state government agencies. We are not naïve about how toll money will be squandered, it has happened before. The money allotted to improvements for I84 will be wasted, and the project will go over budget and the income to the state from the tolls will disappear into the sink hole of state government waste. We have no confidence that this idea is nothing more than another shake down.
