

Good morning, I would like to voice my opinion on Border Tolls. Since Connecticut residents, when leaving the State of Connecticut must pay tolls in all other states I believe Connecticut should enjoy the same spoils as other states do. I believe however that Connecticut residents should be exempt from these tolls. It costs approximately \$50.00 in tolls to drive from Connecticut to Myrtle Beach, Sc. Truckers from New York and Massachusetts travel back and forth from NYC to Boston on Route 84. I believe these truckers will not drive all the way to the Mass. Pike to avoid the tolls. Route 84 was just paved between Waterbury and Danbury less than 18 months ago and is already deteriorating due to heavy truck traffic. We must as a state try to recoup some of this revenue. Thanks for reading my opinion.
