

Please: NO BORDER TOLLS!

My employer, Allied Community Services, is a not-for-profit human services agency serving north central CT from offices in Enfield and East Windsor. More than 50 of our 215 employees travel from and return to Massachusetts five days a week.

Tolls would put an unnecessary strain on paychecks that are already in jeopardy because of looming cuts to the DDS and DSS budgets, our major funders. They would also adversely affect our ability to attract and retain qualified job applicants from across the border, virtually in our back yard.

We urge you to DISAPPROVE this plan. Thank you.
