

Re: HB6818 Tolls

I am opposed to establishing tolls in Connecticut regardless of their placement. Although electronic, the toll plaza is a distraction and raises the potential for accidents. New Hampshire has tolls but their other taxes are lower than Connecticut and the tax burden is already high for residents and will act as a disincentive to visitors.

In particular, businesses will be adversely impacted by this tax added to inbound and outbound shipping of goods and service providers. The tax will be passed on to consumers in Connecticut. Our businesses will be less competitive and certainly will not attract new businesses to the State.
