

To whom this concerns:

The House Bill 6818 certainly concerns me. It will be extremely unfair for there to be a toll on Connecticut highways for its residents. I live in Enfield and drive 6 miles on route 91 each way over into Springfield, MA on a regular basis. It will be unfair to be taxed again. Many people me included will put additional stress on local roads to avoid these tolls. I live on social security and a few dollars a month means a lot to me. To set up and maintain such a system will be very costly as well. To save money, please look at wages paid to state employees.

Sincerely,

Peggyann Dragon-Blumenthal
