

Gentlemen:

I live in Danbury and I go back and forth to Brewster on a daily basis. Tolls are a BAD idea, a hardship to the border residents and can be dangerous in the local neighborhoods.

People know how to avoid Rt. 84 and tolls will force locals to drive thru local neighborhoods, most of which will disregard the 25 mph. Would you like your children to live in one of these neighborhoods.

Tell Gov. Malloy there are numerous other ways to fix the budget deficit. Try cutting back on the \$123M state workers pension fund increase for one!

Bad idea...dangerous idea...why should border residents be singled out? I am totally against this and I support Sen. McLachlan in his opposition to tolls.
