

I think Connecticut should put tolls back on the major interstates that run through our state. It is LONG OVERDUE! Non resident drivers should help pay for the roads they use. Most know buying gas in our state is extra expensive & avoidable as they will shortly be in a state that has cheaper gas, and more than likely be PAYING A TOLL. It is fiscal folly to not have tolls. Connecticut residents should be exempt or given a deep discount. Thank you for the opportunity to voice my opinion.
