

I live in Danbury, tolls on I-84 are the dumbest thing you can do. New York shoppers come to Connecticut to shop at the Danbury Fair Mall, Home Depot, Costco, etc. The reason they come to Connecticut is lower sales tax and convenience. By putting in tolls on I-84 you are taking away the revenue generated from our sales tax. Before you think about adding tolls you should be prepared for the backlash you will receive from the residence of the State of New York and all the Connecticut commuters who work in NY state.
