

To whom it may concern,

Tolls do not belong in Connecticut! Does anyone remember how horrible and dangerous they were? I understand we have EZ Pass rather than the old tickets books we had in CT but it's still unacceptable. They create traffic problems and pollution. Also, as the state police never patrol I 95 in Southern CT (be honest, they don't), how long before a speeding truck slams into the back of a line of cars waiting at a toll? Who takes responsibility for that? Wasn't that one of the reasons the tolls came down, due to safety concerns?

Sincerely,

Robin Bates-Mason
