

Dear Legislators,

I hope most of you will toss this bill out and put it in the round file. If there is one thing Connecticut does not need is another reason not to come to our state. How many more residents and businesses are we going to drive out with the high cost of living here. Did you forget the deaths that occurred when we last had tolls. Instead of always looking for more money how about spending some time looking for ways to cut cost and waste.

Do not pass this bill it is just wrong.

Ron Passaro
Danbury, Ct
