

I am writing to oppose this bill for many reasons, most importantly for myself and many others who commute to New York . in my case 26 miles from Danbury 6 days a week. I would most likely find an alternate route which will take longer, cost more in fuel, and add traffic to secondary roads. Even more importantly tolls were taken out of Ct. for a reason when several people tragically lost their lives at a toll booth. Also with the proposed widening of I84 our highway would turn into a parking lot,  
Find another way.
