Mark Tweedie, State Representative, District 013

Steve Cassano, State Senator, District S04

Richard Blumenthal, US Senator

Christopher Murphy, US Senator

Joe Courtney, US Congressman, 2nd District

Subject: Support of; SB 502, League of American Bicyclists recommendation and Bike Walk CT's proposal

Please support the above safety measures and transportation issues. Our current transportation system is at a critical point.

Pedestrian and bicycling traffic is the beginning of all transportation modes and we need to make it safe for all. All transportation initiatives must include pedestrian and bicycle interests.

The responsibility to fix this crucial problem lies with elected officials and the public, so please support the above recommendations. The cost of not supporting a multimodal transportation system will exceed the costs of supporting it.

Sincerely,

Ronald W. DeGray
