

Dear Sirs and Mesdames;

Nothing will solve our transportation problems faster than getting people off the roads. If people felt safe walking and biking on streets and in neighborhoods, they would do much of their local travel by these means. I know I certainly would. (The ONE time I tried to go from West Hartford to West Farms Mall on my bike, I nearly got killed. Never again.)

Please support legislation to make our streets safer for pedestrians and bicyclists.

Thank you.

Virginia de Lima
