

We need LOCAL FOOD!!! ... Connecticut farmers need to learn how to grow HIGH NUTRIENT DENSE FOOD and reduce pollution ! This is a challenge and an opportunity we face today . A reduction in funds will be detrimental for the future of our farms and the health of our people . I ask our legislators to invest in ct farms . We need to defend the integrity of nature for the health of future generations and protect our waterways from pollution !! Good farming PRACTICE do not pollute !!!!!

Sincerely. Mike g Papa. 203-252-1954 ARTSCAOEORGANICCARELLC@gmail.COM
