

Good Evening,

Co-Chairs, Ranking Members, and members of the Committee, I am Brittany DiMauro, a Radiologic Technologist. I work in the Department of Radiology and have worked at UConn Health for 0.5 years. I am a resident of Torrington.

Thank you for all of your incredible support for UConn Health. Through the state investments in UConn Health, from UCONN 21st Century to Bioscience CT to your regular investments in our Schools of Medicine and Dental Medicine, you have made it a great university that is making a real difference to UConn students and our state.

The challenges you face in reducing the state budget deficit are daunting and I don't envy the task before you. I want to thank you for the opportunity to speak with you and urge you to minimize the cuts to UConn Health.

The recommended budget released last week creates a gap of approximately \$31 million between the state funding and what is needed to operate UConn Health next year.

These deep cuts would reverse the progress made at UConn Health and I fear they will negatively impact patient care.

One of the reasons that I applied at UConn and have remained at UConn Health is to be part of an academic facility to learn the newest techniques and have the ability to teach future leaders in the health profession.

I have been fortunate at UConn Health to have the following experience that will help shape my future or continue my work in providing the best possible care to all patients. I have learned some of the best techniques from physicians and fellow employees and have pride in saying I am affiliated with UConn Health.

I cannot stress the consequences of these cuts enough. The effect will be EXTREMELY DIFFICULT to manage, and will have a severe impact on our programs; the role UConn Health will play in the state's future; our ability to train our future doctors/dentists; etc.

Again, thank you for the opportunity to speak with you this evening and for your ongoing support of UConn Health. I urge you to find a way to restore these cuts so that UConn Health can continue to provide tremendous benefits to our students and patients and to Connecticut's economy and future.

Sincerely,

Brittany DiMauro

I have learned some of the best techniques from physicians and fellow employees and have pride in saying I am affiliated with UConn Health.

I cannot stress the consequences of these cuts enough. The effect will be EXTREMELY DIFFICULT to manage, and will have a severe impact on our programs; the role UConn Health will play in the state's future; our ability to train our future doctors/dentists; etc.

Again, thank you for the opportunity to speak with you this evening and for your ongoing support of UConn Health. I urge you to find a way to restore these cuts so that UConn Health can continue to provide tremendous benefits to our students and patients and to Connecticut's economy and future.

Sincerely,

Good Evening,

Co-Chairs, Ranking Members, and members of the Committee, I am Kimberly Sokol, a Radiologic Technologist. I work in the Department of Radiology and have worked at UConn Health for 26 years. I am a resident of Burlington.

Thank you for all of your incredible support for UConn Health. Through the state investments in UConn Health, from UCONN 21st Century to Bioscience CT to your regular investments in our Schools of Medicine and Dental Medicine, you have made it a great university that is making a real difference to UConn students and our state.

The challenges you face in reducing the state budget deficit are daunting and I don't envy the task before you. I want to thank you for the opportunity to speak with you and urge you to minimize the cuts to UConn Health.

The recommended budget released last week creates a gap of approximately \$31 million between the state funding and what is needed to operate UConn Health next year.

These deep cuts would reverse the progress made at UConn Health and I fear they will negatively impact patient care.

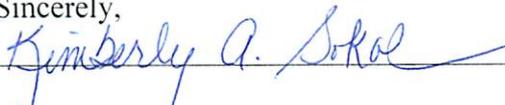

One of the reasons that I applied at UConn and have remained at UConn Health is to be part of an academic facility to learn the newest techniques and have the ability to teach future leaders in the health profession.

I have been fortunate at UConn Health to have the following experience that will help shape my future or continue my work in providing the best possible care to all patients. I have learned some of the best techniques from physicians and fellow employees and have pride in saying I am affiliated with UConn Health.

I cannot stress the consequences of these cuts enough. The effect will be EXTREMELY DIFFICULT to manage, and will have a severe impact on our programs; the role UConn Health will play in the state's future; our ability to train our future doctors/dentists; etc.

Again, thank you for the opportunity to speak with you this evening and for your ongoing support of UConn Health. I urge you to find a way to restore these cuts so that UConn Health can continue to provide tremendous benefits to our students and patients and to Connecticut's economy and future.

Sincerely,

ksokol@UCHC.edu

Good Evening,

Co-Chairs, Ranking Members, and members of the Committee, I am Denise Parsons, a Radiologic Technologist. I work in the Department of Radiology and have worked at UConn Health for 14 years. I am a resident of Wolcott.

Thank you for all of your incredible support for UConn Health. Through the state investments in UConn Health, from UCONN 21st Century to Bioscience CT to your regular investments in our Schools of Medicine and Dental Medicine, you have made it a great university that is making a real difference to UConn students and our state.
