RE: SB 302 – AAC THE IMPACT OF PROPOSED LEGISLATION AND PROPOSED REGULATIONS ON BUSINESSES.

**Submitted by: Joyce A. Wojtas, Lobbyist
Mechanical Contractors Association of CT (MCAC)**

Congratulations to the Honorable Members of the Commerce Committee for raising this bill at a time in Connecticut's history that will not only promote good will for the business community, but will also encourage those who have been so discouraged to see a light at the end of the tunnel.

The Mechanical Contractors Association of Connecticut believes that SB 302 will help all to understand that many good ideas that are raised by the various legislative committees and become bills can have serious and costly ramifications.

Currently, new laws and subsequent regulations can often be extremely detrimental to the economy and the jobs that businesses provide without anyone giving it a second thought. This bill should help improve that problem and also improve the overall business climate in Connecticut.

On behalf of the Members of the MCAC, I would like to thank you for your interest in helping Connecticut move forward.

Respectfully submitted,

Joyce A. Wojtas, Lobbyist
