

Dear Members of the Education Committee,

I am a parent with two children on IEPs in Plainfield, CT. This letter is sent to register my **STRONG OPPOSITION** to Raised Bill HB5552. The changes that are being proposed will not help students in Connecticut that need special education to get FAPE, but be another hindrance in the process. I urge you to not less this pass, as it will hurt families that are exercising their due process rights and delay or prevent FAPE for many students. Thank you for your time.

Respectfully,

Jennifer Lussier
