

To whom it may concern,

Regarding bill-HB 5146; My name is Claire DeCarlo and I would like to testify to the importance of this bill. I received my Gold Award because of the impact this issue had on my community. I feel proud of our collective effort to help the environment. I believe these small steps we make together create a giant leap for mankind. I know you will agree that sport teams during practice and games on sport fields are going to have a large consumption of bottled liquids to quench their thirst. So it is negligent to not have proper recycle containers in place to dispose of them. Thus making them be improperly disposed of and contributing to one of the biggest problems facing our environment: plastic bottle litter!

Thank you very much for your attention to this very serious matter.

Best Regards
Claire DeCarlo
