

Dear Congress members,

I am sincerely urging you to pass the ban of the sale of ivory. By making it a criminal offense it will force the elimination or definitely curtail its demand; therefore, eliminating the supply. And the poachers will be out of business and eventually end the butchering of these innocent animals. If this atrocious practice continues, it will result in the extinction of these animals, adding another crime against our precious earth.

Save the animals, save the earth, do the "right thing"and ban the sale of ivory!!

Sincerely ,

Betty McTiernan
Trumbull, CT
