

Hello,

My name is Brooke and I support the ban of ivory sales. I am not a resident of Connecticut but I travel and ride my bike through states that I enjoy and support. I have had Connecticut on my radar for a couple of weeks this fall while your trees are at their best. However, if this bill does not pass I will not be able to visit your state, spend my money there, and I'll make sure to let others know why I'm boycotting the state.

Please be the voice for those that are voiceless. I will be watching to see how this bill progresses.

Thank you for your time,
Brooke
