

Dear Members of the Environment Committee:

Please support HB 5578 so Connecticut can do its part to help stop the abominable practice of the slaughter of these magnificent creatures.

These are familial animals and should not suffer the indiscriminate killing they currently endure for any reason, much less the sake of their ivory and horns, and we need to set an example and apply pressure wherever and whenever we can to end this inhumane and cruel horror that takes a huge toll every day.

Your thoughtful consideration and positive action on behalf of these creatures will be greatly appreciated.

Thank you so much,

Jeffrey C. Jump
