

Dear sir I am against this ivory bill proposed as it was collected in the right way and people should be able to own it.

Why not go after all those animal poachers with a all out plan & put a stop to it !!

Why not tag chip it so that all legal ivory can be traced Why is government so blinded sighted?

We the people are getting so so tired of all the government short sightless & inefficiency Please vote no on this bill & get things together !!
