

Testimony for HB 5582, An Act Concerning the Private Land Hunting
Revolver Permit
Environment Committee 2/11/16
Karen Laski

Please no! Why have more opportunities for violence? And I don't want to be walking near private land that some hunter is carrying a revolver. I really don't. It scares me and my family and friends plus it's reckless. I've seen many a hunter drinking alcohol and he or she shouldn't be carrying any kind of gun let alone one that is easy to conceal. This bill is abhorrent and an insult to the 99% of people who don't hunt in Connecticut. It's a nightmare to think of more animals being crippled by a gun that will more often miss the target. I'm sick of being afraid to walk in the woods or even hear the woods during hunting season.

Please do not pass this bill.

Thank you,

Karen Laski
