

House Bill 5583

March 7, 2016

We would like the Environment Committee to vote for House Bill 5583.

Bashan Lake has had seasonal drawdowns since the 1940s. The drawdowns are critical to prevent damage to walls that prevent erosion into the lake and for weed control which is necessary to ensure access to recreation areas, for the safety of all swimmers, to prevent hazardous boating and to protect property values.

Thank you,

John A and Barbara A Hoban
