

To The Environment Committee,

I am very concerned seeing running bamboo wild in natural and private properties.

I support the S.B. bill 79 and would like to see a stop to the damage it causes to the environment.

1) ADD [or to grow](#) these 3 words clarify the 40 foot buffer zone

2) ADD subsection (g) to the various subsections -  
*this will authorize an individual to seek \* private enforcement of the buffer zone in court and authorize attorney fees.*

*Otherwise I do not see how uncooperative neighbors will control their invasion.  
Thank you for your consideration.*

*Anne Debroux*
