

To whom it may concern:

Words cannot express my feelings for this asinine piece of legislation.  
This pseudo governor has lost his mind!!!!!!!  
This jerk is going to start a revolution!!  
Let's get rid of this bill and the people who stay awake all night thinking  
of ways to destroy our state and nation.  
Let's not make this state a ghost town.  
The answer is to cut spending. Not tax, tax, tax.
