112 Commissioner of Early Childhood, if not federally assisted, or (2) equal
113 to one-half of the amount by which the net cost of such program, as

114 approved by the Commissioner of Early Childhood, exceeds the
115 federal grant-in-aid thereof. The Commissioner of Early Childhood
116 may authorize child care centers [provided] receiving financial
117 assistance [pursuant to] under this subsection to apply a program
118 surplus to the next program year. The Commissioner of Early
119 Childhood shall consult with directors of child care centers in
120 establishing fees for the operation of such centers.

121 (c) The Office of Early Childhood, in consultation with

135 (d) The state, acting by and in the discretion of the Commissioner of
136 Early Childhood, may enter into a contract with a municipality, a

151 center, including, but not limited to, personnel costs, purchases of
152 equipment, supplies, activities and program materials, within the
153 resources provided by the state under [said] such contract. Upon local
154 determination of a change in the type of [day care service] child care
155 services required in the area, a municipality, human resource
156 development agency or nonprofit corporation may, within the limits of
157 its annual budget and subject to the provisions of this subsection and

162 Childhood. Not later than forty-five days after the Commissioner of
163 Early Childhood receives the application, the Commissioner of Early
164 Childhood shall advise the municipality, human resource
165 development agency or nonprofit corporation of the Commissioner of
166 Early Childhood's approval, denial or approval with modifications of
167 the application. If the Commissioner of Early Childhood fails to act on
168 the application not later than forty-five days after the application's
169 submittal, the application shall be deemed approved.

170 (f) The Commissioner of Early Childhood may, in his or her
171 discretion, with the approval of the Secretary of the Office of Policy

177 supplement to the general statutes is repealed and the following is
178 substituted in lieu thereof (*Effective from passage*):

179 (10) Continually monitoring and evaluating all early care and

182 educational needs of all children, while retaining distinct separation
183 between quality improvement services and [child day care] licensing
184 services for child care centers, group child care homes and family child
185 care homes;

186 Sec. 8. Subparagraph (D) of subdivision (3) of subsection (a) of
187 section 16-50p of the general statutes is repealed and the following is
188 substituted in lieu thereof (*Effective from passage*):

189 (D) In the case of an electric transmission line, (i) what part, if any,
190 of the facility shall be located overhead, (ii) that the facility conforms to
191 a long-range plan for expansion of the electric power grid of the
192 electric systems serving the state and interconnected utility systems
193 and will serve the interests of electric system economy and reliability,
194 and (iii) that the overhead portions, if any, of the facility are cost
195 effective and the most appropriate alternative based on a life-cycle cost
196 analysis of the facility and underground alternatives to such facility,
197 are consistent with the purposes of this chapter, with such regulations
198 or standards as the council may adopt pursuant to section 16-50t,
199 including, but not limited to, the council's best management practices
200 for electric and magnetic fields for electric transmission lines and with
201 the Federal Power Commission "Guidelines for the Protection of
202 Natural Historic Scenic and Recreational Values in the Design and
203 Location of Rights-of-Way and Transmission Facilities" or any
204 successor guidelines and any other applicable federal guidelines and
205 are to be contained within an area that provides a buffer zone that
206 protects the public health and safety, as determined by the council. In
207 establishing such buffer zone, the council shall consider, among other
208 things, residential areas, private or public schools, licensed child [day]
209 care [facilities] centers, licensed youth camps or public playgrounds
210 adjacent to the proposed route of the overhead portions and the level
211 of the voltage of the overhead portions and any existing overhead
212 transmission lines on the proposed route. At a minimum, the existing
213 right-of-way shall serve as the buffer zone;

214 Sec. 9. Subsection (i) of section 16-50p of the general statutes is

217 (i) For a facility described in subdivision (1) of subsection (a) of
218 section 16-50i, with a capacity of not less than three hundred forty-five
219 kilovolts, the presumption shall be that a proposal to place the
220 overhead portions, if any, of such facility adjacent to residential areas,
221 private or public schools, licensed child [day] care [facilities] centers,
222 licensed youth camps or public playgrounds is inconsistent with the
223 purposes of this chapter. An applicant may rebut this presumption by
224 demonstrating to the council that burying the facility will be
225 technologically infeasible. In determining such infeasibility, the council
226 shall consider the effect of burying the facility on the reliability of the
227 electric transmission system of the state and whether the cost of any
228 contemplated technology or design configuration may result in an
229 unreasonable economic burden on the ratepayers of the state.

230 Sec. 10. Section 17b-733 of the general statutes is repealed and the
231 following is substituted in lieu thereof (*Effective from passage*):
