I do not agree with Bill 452. Hartford stole the baseball team from New Britain so, the team is their problem not the problem of everybody in the state of Connecticut. Because they chose to get themselves into this mess everybody else has to pay for it. Hospital funds are being cut, medical help for the low income are being cut, and many of the other programs for Seniors are being cut. Which is more important a baseball team or the welfare of the citizens in this state?

I'm on Social Security Disability and I know I can't afford higher taxes. I did not ask for the illnesses that I have , and the governor has already cut the programs that were helping me. So now I have higher expenses for my limited income. We are already losing many of our long time residents and businesses because of high taxes. Connecticut is getting to be known for being the worst state to live in never mind retiring here. If taxes keep going up I'm going to have to think about selling my home and moving else where. I have lived here my whole life and I really don't want to move at the age of 60. Most of my family is here and all my friends. So, think about it, do you want to drive out more citizens?
