Please oppose this bill. (452)

Hartford already receives State funding to run their city. But they saw fit to spend money they didn't have, on a stadium.

If they were running a surplus and weren't taking money from the state, I could understand, but they need state funds just to run their day to day operations. Why they felt it was OK to take state money, and go spend more than they had , (which was zero) only to ask the taxpayers of Connecticut to pay for this, baffles me. Please deny them any more money than they already get. (and waste)

Thank-you, Russell MacIntyre
