I totally oppose using my taxpayer money to fund the baseball team in Hartford. This is one of the most ridiculous things the state could be doing. Our Governor has cut spending to our hospitals and cutting state jobs but yet we will have to fund a baseball team. What will he be asking us for next... if they don't make the money they are expecting will we have to fund the difference. Let's be honest, not many fans will be going in to Hartford. As for me, I'll stay right in Bristol and watch great ball at Muzzy as are most Bristol residents.
