Subject: SB 14

Mr. Chairmen and members of the committee,

We are opposing senate bill 14. We have been operating a family owned package store since 1997 and the our store has been here for the past 65 years!!!! (2 prior owners before us purchasing). Our store has wonderful history of being small neighborhood shop that is very active in our community. All these is possible because forefather's of the Nutmeg state had thought of very survival of the small family owned businesses, We have customers come from various towns from the state of New York because of COMPETITIVE PRICING AND SELECTIONS, which is not offered in over the border stores. In past five years we have made sacrifices that were suppose to increase the tax revenue. Which has not happened because simply because Supermarkets have taken our business. Please do not pass this bill.

Regards
