Subject: HB 5054

Please consider how this bill affects the principal of "The Rule Of Law". While I realize most of you have never seen a bill restricting 2nd amendment rights of our citizenry that you didn't like, this issue is bigger than your emotional attachment to firearm confiscation. If you attempt to infringe on the citizen's right to due process you have indeed destroyed our country, and moved us back to the dark ages of despotic rule by edict instead of justice according to law. **Think** about this when you hear this bill instead of **feeling** about it and remember what your Constitutional duty is.

Thank You,

Your Constituent
