**Subject:** HB 5054

Dear Legislators and Representatives,

It is with much concern that I write you concerning Bill HR 5054.

In terms of our Constitution and First, and Second Amendments, it would be a travesty of justice to circumvent our nation's laws and approve HB 5054.

As your employer, not constituents, we humbly entreat you to oppose this bill. It circumvents due process and, in these times of voter awareness, may have far reaching implications for any party introducing this legislation. People that have permits to carry and respect the law are the only ones being targeted here.

Respectfully,  
Leonard Paquette  
Southington, CT
