Subject: Oppose H.B. 5054 and H.B. 5597

Please do not support H.B. 5054 or H.B. 5597. In 2014, 45 per cent of ex part temporary restraining orders were found not to be valid after a hearing before a judge. In 2015 that number was 37 per cent. You are now considering a law that would make ex parte temporary restraining orders an established law. For law makers of the "Constitution State" to even consider such a law is unconscionable. A person would be automatically "guilty" without a hearing and without facing the person making the accusation. This is not only bad law, it is also "unconstitutional". We already have laws in place to address these issues. Please oppose H.B. 5054 and H.B. 5597. Thank you.
