Subject: HB 5344 Desmond's Law

SHAME ON US FOR NOT ENACTING THIS SOONER.

Every day 24/7 the quality of human life is enhanced by the animal kingdom and specifically CANINES! They provide service in Military, Law Enforcement, Medical/Health-Seeing Eye, Stroke alert, anxiety calming , Education ect. Yet they are treated by law as property. This is an outrage!

If you have the wisdom and compassion to realize that animals are deserving of protection now is the time to cast your vote for Desmond's Law.
