Subject: HB5344 support

I am writing to you in support of HB 5344 known as Desmond's Law titled An Act Concerning Support For Animals That Are Neglected Or Abused. I am frustrated and angry to learn that so many animal abuse and neglect cases go unpunished and that there is no advocate for animals in our legal system. This bill is long overdue and I urge you to pass it as soon as possible.

Thank you.
