Dear Committee Members

I am unable to attend the public hearing regarding the referenced bills in person so please consider the following.

I find it difficult to maintain a respectful tone as it is clear given the facts that these bills are yet again veiled attempts to remove more of my natural rights. The proposed legislation will not have an effect on a person intent on doing harm to someone else. Such perpetrators will use a hammer, bat, their fists or some other tool if they are determined to do great harm to another human being.

Please, enough with this nonsense. It is insulting how those who propose these bills claim to be guardians of the "victims" right yet care nothing of mine and the vast majority of law abiding citizens.

I repeat my statements from when you illegally stripped our rights when you passed SB1160 in 2013. We have a mental health crisis not a gun issue. There are already laws in place that do what your stated goals are here. We have enough laws, use them and leave the law abiding alone.

Thank You

Mike Ninteau
