### Testimony

I am a registered independent but a lifelong republican and I think we can enact as many laws as we like and it will still not control guns in wrong hands until we either ban all guns or get at the rout of what ails us as a society we will continue to see shootings of the young and old. Please, let's talk to the disenfranchised and help them. Control the drugs coming into our state. Support our single parent families and teens who have grown up in broken homes and below standard educational institutions.
