Subject: Bill# 346

Ref Bill #346- The following is for my Brother Johnathen L Stewart who was killed in a hit in run November 17, 2002.

To Whom it May Concern;

I am writing in hopes that this helps get this bill passed, anyone who can knowingly hit an kill someone then evade police for 13 years, come into the police dept with a full "phony" confession knowing that he will not be charged should pay! We have suffered and continue to suffer knowing that this guy can walk free and LIVE his life. John did not have that chance. Please consider passing this bill so someone who commits such a crime will be charged appropriately. Thank you for taking the time to read this email.
