**Attachments:** 2016SB-00346-R00-SB.pdf

Good Morning,

I am writing to you today in regards to Bill #346, several years ago a good friend of mine was killed when he was hit by a car. The person after several years of hiding the accident came forward last year, as a friend of his and also watching his family suffer for so long with no answers at all I am writing to you bc this person that committed the crime gets to walk without jail time because of a bill.... Attached is a bill that should be enforced to make sure that those who walk away from a crime are made to do the time they made the crime for. Jonathon's family and friends deserve to live a life in peace and the gentlemen deserves to pay for his actions even after so long it is not fair that this man can walk without having to pay for what he did. Jon was a friend, son, and brother he always offered help and was always there for anyone regardless of the situation or issue. He never judged you and would always welcome you with open arms. Please please consider taking this bill into affect as I'm sure his incident is not the only one that suffered from this.

Sincerely,  
Amy DePratti
