Subject: Reference bill #346

To Committee on
JUDICIARY,

I am John Stewart's uncle and Brian Stewart's brother. I will never forget the pain we went through, and how helpless we all felt to see John just laying in a hospital bed, a young man with no chance. You tell him you Love him and you hope that hears you, but what do you say to his father? His mother? There were no words just pain.
We lose people every day yes, but not like this, the person responsible for this tragedy never had the decency to even pick up a phone.
Although there will never be true justice for my nephew, I appreciate any positive change bill #346 will have going forward.

Thank You,

Stephen M. Stewart
